Subject: FW: Materials - Diesel Testing w/ OTAQ/Video w/NVFEL
Attachments: 2016-9-14 Other Diesel Testing v1.pptx

Hi Paul,

I think I said yesterday that we gave this briefing last summer but that was incorrect, we gave this briefing on September 14. As my note below suggests, the slides aren't necessarily self-explanatory at least with regard to what we are wanting the reader to take away from them. I walked through these over a two hour period with Janet McCabe and Cynthia Giles (AAs for OAR and OECA).

If you are in the office tomorrow and have time, I would like to walk through some of this with you along with my thoughts on how we might pull something new together for the team. Please let me know if you have time.

Thanks,

Byron

Attached are draft materials for our update on the diesel investigation. Please note that these slides contain information for which a CBI claim has been made.

Enforcement/Investigatory / Ex. 7(a)

takeaway we want for each slide, but in the end found that too messy. As a result, it may not be self-evident the points we are trying to make with the slides and their sequence. For that reason, we are not planning to provide them to Janet and Cynthia in advance of the meeting.

Thanks,

Byron
